APPLIED PROTEIN BIOTECHNOLOGIES (PTY) LTD

Registration Number: 2018/243651/07

VACANCY ADVERT

JOB TITLE: RESEARCH ASSISTANT

COMPANY: APPLIED PROTEIN BIOTECHNOLOGIES (PTY) LTD

Applied Protein Biotechnologies (APBio), see www.apbio.co.za, is an advanced Protein Engineering Biotech Company innovating new high-performance proteins, enzymes, biocatalysts and packaged reaction systems (i.e. reaction kits). We innovate products for the Laboratory Research Reagents and Industrial Enzymes Industry as well as novel Biocatalysts for the Chemical industry with product applications in the Health and Wellness markets.

We have a position available for a Research Assistant in our Gauteng Based laboratories.

KEY ROLES AND RESPONSIBILITIES

Personal Attributes, skills and competencies

- Enthusiastic, diligent and hard-working
- An independent and critical thinker capable of innovative problem-solving
- Practically capable of working in the laboratory

Qualifications and Experience

- At least a BSc Honors in any Life Science degree, a Master's degree would be advantageous as well as practical experience in Protein work.
- Ability to exercise tact and good judgement with highly sensitive information
- Excellent written and oral communication skills in English.
- Excellent time management skills and ability to function independently
- Strong organisational skills and ability to multi-task

The Company gives preference to candidates who meet the requirements and who will add to the cultural and gender diversity of the organisation.

Should you meet the above requirements and wish to contribute to the success of the organisation through this position, please submit your CV clearly indicating the position you are applying for, to the following e-mail address admin@apbio.co.za.

Closing date: 16 June 2019

PLEASE NOTE THAT CORRESPONDENCE WILL BE ENTERED INTO WITH SHORT-LISTED CANDIDATES ONLY.
